Now is the time to jump start your digital photography skills with one-on-one instruction tailored to your specific interests. You will learn faster and retain more information with my private online Lightroom and Photoshop lessons.

Each Online session can be as short as 30 minutes ($40) or in 1 hour blocks ($75) up to an entire day. Every 5th hour is free when you prepay for 4 hours.

I also offer a custom “on call” style help desk option on a prepaid $1.25 a minute for those who just need some “on the spot” assistance or advise and/or critique of one of their images now and then.

I even offer my retouching/artwork services to those who just want their images to shine without the hassle of learning. (Also billed at $1.25 per minute)

I have been tutoring in photography and Photoshop for decades, and find the one-on-one environment to be the most effective learning environment.

CALL OR TEXT RANDY AT 801 209-2848 FOR MORE DETAILS AND TO SCHEDULE YOUR FIRST SESSION
